Sollers Consulting K.K

Company Description

Sollers Consulting assists insurance companies in developing industry-leading operations. Its international teams, comprising business and IT experts from 42 nations, work out of sixteen offices across Europe, North America, and the Asia-Pacific. Since its inception in 2000, Sollers has partnered with over 150 organisations globally, implementing both core and front-end systems.

Sollers has collaborated with renowned companies such as Admiral, Amica, Aviva, AXA, Beazley, FMNE, Helvetia, Insurance Australia Group (IAG), Liberty, MS&AD, QBE, Red River Mutual, Sompo, Texas Mutual, Tokio Marine, VHV and Zurich. By leveraging its local insurance expertise, Sollers supports insurers in customising technology solutions to meet their specific needs. Company's partnerships include major core system providers like Guidewire and Salesforce, modern data solution providers such as Snowflake and Databricks, all major cloud providers (AWS, GCP, and Azure), process automation platforms, like Appian and Camunda, and insurance-specific solutions in areas like pricing and underwriting from SEND and Hyperexponential.
