Turing Enterprises Inc.

Company Description

Your expertise
builds AI.
FLEXIBLE, WELL PAYING, REMOTE ROLES.
Be at the forefront of AI

About Turing
The Research Accelerator for AI Labs and the Proprietary Intelligence Partner for Enterprises

Based in San Francisco, California, Turing is the world's leading research accelerator for frontier AI labs and a trusted partner for global enterprises deploying advanced AI systems. Turing supports customers in two ways: first, by accelerating frontier research with high-quality data, advanced training pipelines, plus top AI researchers who specialize in coding, reasoning, STEM, multilinguality, multimodality, and agents; and second, by applying that expertise to help enterprises transform AI from proof of concept into proprietary intelligence with systems that perform reliably, deliver measurable impact, and drive lasting results on the P&L.
