# TAOKE ENERGY Co., Ltd.

## Company Description

TAOKE GROUP,a global company focusing on renewable energy,was founded in 2010 and has a dedicated presence in China,Japan,Southeast Asia and other regions with business scope covering system development,sales and services on PV remote monitoring and LFP ESS.

Shanghai Taoke New Energy Technology Co., Ltd.(Hereafter referred to as Taoke Energy.) was founded in 2018. Based on the accumulated brand influence and market experience of Taoke Network,combined with the founder's over a decade years' experience in the field of PV system integration,Taoke Energy has now become a professional C&I ESS service provider and expand its global brand perception gradually.In collaboration with CALT (the world's largest LFP battery manufacturer) ,Taoke Energy can provide customers with first-class source-grid-load ESS solutions and optimal investment solutions in new energy.By the end of 2023, Taoke Energy had accumulated over 30 ESS projects cases with a sales performance exceeding 40MWh,gaining rich experiences in system development,operation and after-sales service.

Nowadays, TAOKE GROUP has developed into a first-line new energy service provider with market share ranking top three in Japanese market.The evolving energy market is at a critical period with good opportunities, TAOKE GROUP will always adhere to the concept of technological innovation driving good products and services, committing to establish a green world with PV power as the main clean energy.TAOKE GROUP are now taking a new step towards the fifteenth anniversary and with a vision of letting green power benefit every industry and creating a sustainable future .

## Company Details

**Head Office**
Japan

**Main Business**
産業用リン酸鉄リチウムイオン蓄電池システムの開発、製造、販売 EMS、蓄電池遠隔監視システムの開発 系統用蓄電所の開発

**President**
陸 劍洲

**Established**
2018年8月10日

**Capital**
6,500万円
