Job Description

Position: QC Assistant Manager (Construction Quality Control)

Salary: 60,000 – 90,000THB +/- (Negotiable)

Location: Bangkok (Rama IV Area)

Our client is a leading company in the construction and engineering industry, delivering large-scale industrial, factory, warehouse, and commercial building projects. We are looking for an experienced quality professional to lead and strengthen project quality management across construction sites.

Key Responsibilities of the position:

- Oversee and manage Quality Control activities across construction projects to ensure compliance with project requirements and quality standards.
- Conduct regular site inspections and quality assessments to verify compliance with specifications, regulations, and client expectations.

- Develop, review, and maintain quality documentation, including inspection reports, test records, and quality-related reports.
- Coordinate with project teams, consultants, subcontractors, and clients to resolve quality-related issues effectively.
- Investigate non-conformities, perform root cause analysis, and implement corrective and preventive actions (CAPA).
- Monitor construction activities to ensure compliance with approved procedures, drawings, and quality standards.
- Support internal and external quality audits and maintain compliance with the Quality Management System (QMS).
- Lead, mentor, and provide technical guidance to QC Engineers and site teams.
- Drive continuous improvement initiatives to enhance construction quality, operational efficiency, and client satisfaction.
- Ensure all inspections, testing activities, and quality records are completed accurately and on time.

Qualifications

- Bachelor's Degree in Civil Engineering, Mechanical Engineering, or a related field
- 7+ years of QC/QA experience within construction projects
- Experience leading QC Engineers or site quality teams
- Strong knowledge of construction quality standards, inspections, and quality documentation
- Familiarity with ISO 9001 and Quality Management Systems (QMS)
- Experience handling NCRs, root cause analysis, and corrective actions
- Strong communication and stakeholder management skills
- Good command of English and Microsoft Office proficiency
- Professional Engineer License (PE License / ■■■) is a plus
