Job Description

About the role

The Environment Engineer role offers an opportunity to support environmental compliance and wastewater treatment operations within a large industrial environment.

Responsibilities

- Coordinate with authorities and tenants regarding environmental permits, licences, inspections, and compliance matters.
- Support tenants in addressing environmental issues and meeting regulatory requirements.
- Supervise wastewater treatment plant operations through external contractors.
- Monitor wastewater discharge activities to ensure compliance with industrial park regulations.

- Coordinate wastewater treatment plant improvement, expansion, and upgrading projects.
- Operate and monitor the automatic environmental monitoring system.
- Ensure contractors comply with occupational health and safety requirements.
- Monitor changes in environmental regulations and support implementation within company operations.

Requirements

- Bachelor's degree in Environmental Engineering or a related field.
- At least 3 years of relevant experience in environmental management or wastewater treatment operations.
- Good knowledge of environmental regulations, standards, and compliance requirements.
- Strong communication, coordination, and problem-solving skills.
- Good command of English.
- Proficiency in Microsoft Office applications.

About the company

A company in the industrial infrastructure industry, focused on developing and operating high-quality industrial facilities. The organisation is committed to maintaining sustainable operations, environmental compliance, and long-term development.
