Job Description

Our client, MNC Manufacturing Based Company, looking for suitable candidates

JOB RESPONSIBILITIES

- Perform preventive and corrective maintenance on machinery, electrical installations, equipment and factory facilities according to the maintenance schedule.
- Monitor and maintain the factory's electrical systems, including lighting, power supply, wiring, switches, sockets and distribution boards.
- Carry out basic electrical wiring, installation, testing and repair works in accordance with safety requirements and applicable regulations

- Perform general building and facility maintenance, including plumbing, water supply, drainage, lighting, doors and other building-related facilities.
- Attend to maintenance requests and breakdowns from various departments and ensure timely rectification.
- Ensure all maintenance activities comply with company safety procedures, electrical safety standards and relevant regulatory requirement

JOB REQUIREMENTS

- Minimum SPM / Certificate / Diploma in Electrical, Mechanical, Building Maintenance or a related technical field.
- Must possess a valid and recognised Electrical Wiring Certificate, such as PW2, PW4 or an equivalent qualification recognised by the Energy Commission (Suruhanjaya Tenaga).
- Minimum 2–3 years of working experience in electrical, machinery or facility maintenance, preferably in a manufacturing environment.
- Good knowledge and hands-on experience in electrical wiring, troubleshooting, electrical installation and maintenance.
