Job Description

Company and Job Overview
Our client is an industrial recycling and hazardous waste treatment company primarily recovering precious non-ferrous and ferrous metals by processing scrap and by-products from high-tech and heavy industries.

Job Descriptions

- Oversee the setup and development of our new manufacturing facility in Penang.
- Coordinate factory construction, equipment installation, commissioning, and production start-up activities.
- Monitor project timeline, quality, safety, and budget to ensure successful completion.
- Upon completion of the plant setup phase, the role will transition into managing daily manufacturing operations, production performance, maintenance coordination, and continuous improvement initiatives.

- Main internal coordinator between management, contractors, utility providers, and equipment vendors.
- Ensure compliance with local authority requirements, safety regulations, and industrial standards.

Job Requirements

- Min Diploma and Degree in relevant fields
- Min 5-7 years of experience overseeing company setup and operational readiness
- Hands-on technical skills in industrial equipment installation, commissioning, and production startup.
- Knowledge in local authority requirements, safety regulations, and industrial standards are beneficial
