## 募集要項

Development of various services to support the core shopping cart system and to enhance the convenience for the stores operating on the marketplace. Responsibilities include undertaking development and operational projects for various services, resolving technical issues, troubleshooting, and handling tasks from design and development to operations. Currently involved in the reconstruction of the system and expected to participate in the creation of a new application as part of this redevelopment.

## スキル・資格

- Over 5 years of Java EE development experience.
- Experience in developing Web APIs using RESTful / SOAP technologies.
- Experience in operating large-scale online systems and handling incidents.
- Specialized knowledge of the software development lifecycle, including code standards, code review, source code management, build processes, testing, and operations, among others.

- Proactively capable of designing and developing high-performance, reliable, and maintainable code.

## 会社説明

RANDSTAD connects great people with great companies, making the right human connections to create winning teams.
Randstad may be a recent name in Japan, but we've been supporting candidates and clients in Japan for more than 25 years.
With humble roots in the Netherlands in 1960, Randstad grew from a small, local staffing company into a global leader in HR solutions, covering 39 countries.

Randstad Japan, a premier HR Professional Services company is growing its Professionals (mid-career / executive search) recruitment division rapidly from 2014. We’re looking for passionate, ambitious team-players who are ready to bring their career to the next level. With 117 offices located across Japan, a wide-ranging client network across industries and functions, Randstad is well-positioned to grow its recruitment presence in Japan.
