募集要項

About the company

- Global firm that specializes in marketing tech, and operates various products/business such as an ad platform, marketing SaaS, digital PR and more

- One of the fastest growing companies (awarded in the Financial Times)

- Flexible, hybrid working style and international environment (both Japanese and English used)

Your role

Lead and oversee the design, development, and operation of backend systems, laying the technical foundation for next-generation solutions and work closely with cross-functional teams to enable continuous improvement.

スキル・資格

Looking for a candidate with (required qualifications)

- Bachelor's degree in Computer Science, Software Engineering or similar

- Strong application development experience skills in Python

- Enterprise SaaS development background

Plus (preferred qualifications)

- Bilingual skills (Business Japanese and English)

- Experience with cloud services (AWS, GCP, Azure) and container technologies

- Knowledgeable and passionate about AI technologies
