募集要項

COMPANY OVERVIEW

The client is a leading global player in the shipping and logistics industry, recognized for its strong market presence, operational excellence, and long-term commitment to technology-driven transformation.

JOB RESPONSIBILITIES

- Lead the end-to-end implementation and post-go-live support of SAP S/4HANA Finance modules, including AR, AP, GL, Lease Accounting, and Fixed Assets.
- Ensure seamless integration between SAP S/4HANA and Veson IMOS Platform (VIP), supporting voyage accounting, financial postings, and reconciliations.
- Analyze, document, and optimize business processes across finance, commercial operations, and voyage accounting.
- Translate business requirements into functional SAP solutions that support revenue recognition, cost allocation, and financial reporting.

- Partner closely with Finance and Commercial stakeholders to gather, validate, and prioritize business requirements.
- Act as the primary liaison between business users, IT teams, implementation partners, and vendors.
- Support the Project Manager in delivering the SAP S/4HANA programme, including milestone tracking, risk management, and workstream coordination.
- Design, configure, and test SAP solutions to ensure alignment with business and operational requirements.
- Lead and coordinate System Integration Testing (SIT) and User Acceptance Testing (UAT) activities.
- Support data migration planning and execution, including data validation and reconciliation activities.
- Contribute to go-live readiness activities, user training, cutover planning, and hypercare support.
- Monitor vendor performance, ensuring deliverables are completed in accordance with agreed timelines and service levels.
- Drive issue resolution and manage stakeholder communications throughout the project lifecycle.

JOB REQUIREMENTS

- Degree in IT, Computer Science, Accounting, Finance, or related field.
- 4 to 10 years' experience in SAP implementation, business analysis, or IT project delivery.
- SAP S/4HANA Finance expertise (AR, AP, GL, Fixed Assets, Lease Accounting).
- Strong knowledge of P2P, Voyage Accounting, and Financial Reporting processes.
- Experience in shipping, maritime, logistics, transportation, or energy industries preferred.
- Skilled in requirements gathering, gap analysis, process mapping, functional specifications, and UAT.
- Experience delivering solutions across complex, multi-site environments.
- PMP, PRINCE2, Agile, or Scrum certifications are advantageous.
- Strong analytical, stakeholder management, and communication skills.

Working Location: Singapore
