## Job Description

---

My client is looking for a multi-skilled software developer to work on custom support and custom development projects relating to the gaming and entertainment industry in Japan. This is an excellent opportunity for candidates interested in working with gaming, entertainment and media companies, with some of the best graphics and animation technologies in the world.

## Required Skills

---

Successful candidates are likely to have:

- Knowledge of Maya architecture and API
- C++ and Mel scripting skills
- Knowledge of game production work flow

## Company Description

---

Aston Carter is an independent IT recruitment consultancy established in 1997, to provide a pro-active service to the investment banking market. In London it is established as the leading IT staff supplier to a number of leading Investment Banks and Financial Services companies.

Aston Carter has been present in the Tokyo market in a passive manner since 2005, placing candidates from across the globe that wish to relocate to Tokyo as well those already based locally. Due to an increasing demand for its unique services in Tokyo amongst our global clients, Aston Carter has established a team of consultants to concentrate exclusively upon this market.

Aston Carter ' s key operating principles can be summed up in three words: Professionalism, Co-Operation and Delivery. The company has a positive, dynamic vision about where its business needs to go and a passionate commitment to getting there. Consultants are carefully selected according to their experience and achievement-oriented outlook.
