POSITION TITLE
Software Developer

POSITION SUMMARY
A leading Japanese food importer and distributor is seeking a Software Developer to support the development, maintenance, and enhancement of internal business applications. This position will play a key role in developing ERP and business systems, supporting system integrations, managing databases, and delivering technology solutions that improve operational efficiency across the organization.

RESPONSIBILITIES

- Develop, maintain, and enhance business applications using C# and .NET

- Design, develop, and support internal applications, including ERP, WMS, EDI, BI, mobile applications, and web portals
- Write, review, and troubleshoot SQL queries to support application functionality, reporting, and data integration
- Develop and maintain integrations between business applications, databases, and Microsoft Dynamics 365 Business Central
- Investigate application issues, implement fixes, perform testing, and maintain technical documentation
- Support database management and ensure data integrity across business applications
- Participate in application design, development, deployment, and ongoing maintenance
- Participate in domestic and international business travel as needed
- Perform additional development and technology-related projects as assigned

QUALIFICATIONS

- Business-level English required; business-level Japanese preferred
- Bachelor's degree in Computer Science, Computer Engineering, Information Systems, or a related field
- 4+ years of professional software development experience
- 3+ years of hands-on C# development experience
- Strong experience developing and maintaining applications using C# and .NET
- Ability to write and troubleshoot SQL queries, including SELECT, JOIN, INSERT, UPDATE, and DELETE statements
- Understanding of relational databases, application debugging, and software troubleshooting
- Experience with ASP.NET Core, REST APIs, or business applications preferred
- Experience with Linux, macOS, and Windows operating systems preferred
- Knowledge of Japanese food products and sake is a plus
