### Company Description:

MRI is the world ' s largest search and recruitment organization with over 1,100 offices operating in more than 40 countries. Each year MRI completes nearly 45,000 placements covering every major industry, at every level and for almost every major company. Working in partnership with our parent company, CDI, MRI is able to fulfil large and specialized staffing assignments better than any other staffing organization in the world.

When companies are ready to find the right people to help them meet new challenges and opportunities, MRI can deliver the most complete menu of staffing services and customized staffing solutions... on a local, national or global basis.

Other business conditions affect the demand for top talent and force many organizations to revise their hiring strategies. Staffing organizations must be prepared to adapt to these changes. As the search and recruitment industry ' s pioneer and leading innovator, MRI Japan is uniquely positioned to quickly respond to changes and challenges.
