

Company Description

BiOS, Inc.

BiOS was formed in 1998 and has evolved into a premier IT solutions provider to a wide range of small and large foreign firms in Japan. We have developed strong partnerships with an increasing number of major Japanese and foreign firms while establishing a reputation for excellence with some of the world's leading IT vendors.

Over the years BiOS has developed the benchmark for bilingual IT Solutions in Tokyo, built on the principle of providing honest and affordable services customized and tailored to our client ' s needs.

We are always looking for bilingual IT professionals to join our onsite and internal teams. We pride ourselves in recruiting talented and ambitious engineers from all over the world.

Currently our teams include bilingual technical, sales and administration staff from more than 10 countries making BiOS a dynamic IT Team in Tokyo where intellect and creativity and a strong work ethic are all rewarded.

Start your future today with BiOS.
