

Company Description

JAC Japan

JAC Recruitment is a recruiting agency established in March 1988. We were listed on JASDAQ exchange this September and are still planning to expand our business. We have over 600 staff at present and are working on international career consulting with alliance-companies in Europe and many countries in Asia. We support foreign companies to secure human resources when they come to Japan. We were one of the main staff placement companies used during Aichi Expo.

We are now aiming to expand and reinforce our support of foreign affiliated companies. We will be also starting to aim our services at Chambers of Commerce, Embassies and executives in foreign affiliated companies.
