Advisory Group K.K.

Company Description

Advisory Group is a trusted hiring marketplace built to help people (regardless of age, gender, education or career gaps) find their dream jobs via permanent employment, temporary employment, projects or consulting engagements.

Advisory Group's mission is to drive positive change to the recruitment industry and encourage companies to hire people based on their skills, experience, attitudes and potential rather than age, gender, education or career gap. We are PASSIONATE about people and we help overlooked talent to find real jobs that make a meaningful contribution. We work for the under appreciated candidates, such as single moms, working moms, seasoned and semi-retired professionals or the unemployed.
