

KRATON Polymers Japan

Company Description

US-based Chemicals company, world leader, producing and selling polymers globally, with offices around the globe. In Japan, we have a sales office in Tokyo and an R&D facility in Tsukuba, having approximately 40 people staff. The global IT team consists of approximately 15 people from all around the world, with different cultural backgrounds and knowledge and experience levels. They have one major business goal: to facilitate and assure the use of Information Technology, where appropriate, as a catalyst to improve the KRATON business processes. In a challenging environment like this, we expect our people to be pro-active, flexible and willing to perform activities beyond their original scope. In return, we offer our people a very broad working area with lots of personal development opportunities.
