

# ISF NET, Inc.

## Company Description

**【Our Business and the Contributions of Our Engineers】**
ISF NET Inc. is a company based in Tokyo that provides IT solutions. Since its founding in 2000, the company has grown from just four employees to a team of over 2,000 professional engineers. We have offices in 18 cities across Japan, as well as in China, South Korea, and Singapore, working to shape the future of IT infrastructure on a global scale.

The driving force behind our growth is our unwavering commitment to “Eco & Employment” since our founding. By providing an equal opportunity for everyone to thrive, regardless of race, gender, nationality, or disability, we contribute to the development of society and the environment through IT.

**【What we seek in our engineers】**
We view employment as an important investment in future business growth. We are committed to creating an environment where everyone can thrive in their own way.

What we seek is not merely technical expertise.

・Those who can sincerely engage with solving our customers' challenges
・Those who can enjoy technological changes and continue to learn
・Those who can collaborate with diverse team members

Currently, our projects primarily focus on IT infrastructure, including network and server deployment/operation, and cloud-related technologies. While the technical areas vary by project, we offer an environment where you can participate in tasks aligned with your experience, skills, and preferences. Additionally, for those seeking to further enhance their expertise, we provide comprehensive support for continuous skill development, including external training programs and certification acquisition assistance.

**【Benefits of working at ISF NET Inc.】**
ISF NET recruits talent throughout the year who can work not only in Japan but also globally. Please take a look at our recruitment information.
For applicants from overseas, we have the following support systems in place to facilitate a smooth arrival and start of employment in Japan.

・Airfare subsidy for initial entry (with a cap)
・Relocation expense subsidy from overseas (100,000 yen provided uniformly after employment, regardless of residence)
・Visa support (assistance with residence status applications)
・Dormitory provision (available to new hires only, at a monthly cost of 35,000 yen)
・Japanese language training (business Japanese training after joining the company)
・24/7 lifestyle support desk

We have a comprehensive system in place to ensure that even those residing overseas can confidently start their careers in Japan.
