

HYDAC CO., LTD.

Company Description

A leading company in the field of construction and industrial machinery!

HYDAC JAPAN was established in 1997 as a Japanese corporation of HYDAC Technology GmbH, headquartered in Germany, with more than 6,500 staff, more than 500 sales offices and service partners worldwide. Utilizing our worldwide network, we are able to accurately respond to the advanced demands of our customers in the domestic and international markets by concentrating our expertise and high quality control in each region.

From individual parts to all products

HYDAC offers a comprehensive range of products in hydraulic units, electrical controls, solenoid systems and fluid monitoring sensors (such as condition monitoring).
