

Avtel Limited

Company Description

SEAMLESS INTEGRATION OF SECURITY TECHNOLOGIES

The protection of people, assets and intellectual property remains one of the primary concerns in business. At AVTEL, we provide the answer with robust and innovative security systems that integrate seamlessly into your operations. You can rely on our in-depth understanding of both traditional and IP-based security technologies to safeguard your company and protect what's important in the most efficient way.

GLOBAL EXPERIENCE AND LOCAL UNDERSTANDING

Location matters and companies face a range of different security risks and challenges in local, regional and multinational business environments. With offices located in three continents and clients across the world, we appreciate the effects and implications of everything from political instability and cultural issues to terrorism and natural disasters.
