Izumi Network Yugen Kaisha

Company Description

Izumi Network is a well established Recruitment, Translation and Localization Services Company based in Nagoya, Japan and Bangalore, India.

Our presence in both countries gives us the advantage of understanding the finer nuances of our client's requirements whether it be in the field of translation services which we have been specializing in for the last 15 years or in the field of Recruitment services in which we have registered a phenomenal success rate in a very short period of time.

Recruitment Services : 「23-ユ-301087」
Izumi has entered the field of manpower / recruitment / contract staffing services in response to the growing need for quality resources who are not only technically qualified but who also possess bilingual capabilities. Our transition from being a Translation Services company, into this area of business has been natural and smooth due to our existing network of clients and partners to whom we have demonstrated our professionalism and competence in the past.

Our core focus is on requirements from the IT, Engineering, Telecom, Insurance etc. for both permanent recruitment as well as contract based staffing. Such a focused vision enables us to identify and provide specialized resources in a quick turnaround time.

Language Services:
In today's global market scenario, knowledge is exchanged and alliances are formed across linguistic boundaries and at IZUMI NETWORK, we understand that Effective COMMUNICATION is the key to building a successful global business.

We provide translation services for software localization, website localization, voice over recording and transcription.

Our pricing is based on Language, Content, Delivery time and volume. Our rates are highly competitive but we pride ourselves on our exacting quality standards.
