Mori Building Hospitality Corporation

Company Description

Mori Building Hospitality Corporation is the hospitality division of the Mori Building Group, a leading Japanese urban development company. The company operates a diverse portfolio of luxury hotels, including Grand Hyatt Tokyo, Andaz Tokyo, Hotel Toranomon Hills, and Janu Tokyo, as well as membership clubs, wellness facilities, and residential front desk services.

By combining the Mori Building Group's extensive expertise in urban development with world-class hospitality, the company creates exceptional experiences and memorable moments for guests from around the world. Each property reflects a distinctive identity and a commitment to delivering refined, personalized service that exceeds guest expectations. Through its hotel operations, the company places great importance on preserving the unique character and international brand standards of each property, while embracing diverse cultures and values.

The company is also committed to fostering an inspiring and inclusive workplace where employees can enhance their professional expertise and pursue meaningful career growth in an international environment. Through the art of hospitality, Mori Building Hospitality Corporation strives to enrich lives, create extraordinary experiences, and establish itself as one of the world's leading hospitality companies.
