

Krones Japan Co., Ltd.

Company Description

Krones offers lines for the beverage industry and food producers: process technology, filling technology, packaging machines, all the way through to IT solutions.

Every day, millions of glass bottles, cans and PET containers run through a Krones line. As a supplier for complete systems, Krones provides breweries, beverage bottlers and food producers all over the world with individual machines and with complete production lines.

Krones designs and implements complete lines for beverages and food, which cover each individual production process step – starting from product and container production, filling and packaging all the way up to material flow and container recycling. No matter which task you have approached us with: you call the tune and we will provide solutions customised to your needs.
