

Iapana K.K.

Company Description

Our Experience

Iapana K.K. is a Tokyo based IT services and technology solutions provider with over 20 years of experience helping foreign multinational corporations deploy and maintain IT infrastructure in Japan. Our areas of expertise include but are not limited to:

- Enterprise class data/voice networks
- End-to-end integration
- Networks and systems security
- Storage/datacenter infrastructure
- AV infrastructure
- Professional & consulting services

Our Approach

Our service includes a comprehensive consult to help identify gaps and opportunities, a comprehensive report that includes timelines, milestones, and a schedule. We also offer a suite of quality products that will help you get there quickly and smoothly.

Iapana K.K. facilitates entry into the Japanese market along with the other elements critical to your project.

Why Us?

Having the experience to support different business sectors such as Health Care, Financial Services, Amusement Parks, Retail, and Transportation, we are confident we are able to provide the right solution for your business needs. The Japanese market is best navigated with an established Japanese partner in order to facilitate a rapid and smooth transition. Advance your project with experienced, local knowledge and contacts.
