

PM Global, Inc.

Company Description

Together for global solutions **PMGlobal >**

In projects with global partners, you need more than just management skills. You need communication capabilities based on the recognition of cultural differences and an approach that includes on-site views. PM Global provides project management services for a wide variety of projects, from IT development and business and communication improvement to implementation of new business processes and individual strategies and tactics across multiple industries to achieve difficult tasks and further expand our client's businesses globally.

Our company, established with the concept of "supporting customer projects globally," is celebrating its 15th anniversary. In this time, we have assisted with nearly 100 projects. No two projects are ever the same, but every time we have worked alongside our customers to overcome challenges and achieve results.

The advantage of our services is that our bilingual consultants can communicate closely with a range of stakeholders in Japan and abroad to keep your project moving. We have earned an excellent reputation with a large number of customers for bringing people together across cultures and company positions to create an environment where everyone is focused on the same goal.

Our Concept

PM Global is a team of global project management specialists. We support you with our three key capabilities, helping you realize your goals for innovation in your projects.

- **IT** : We have the capability to consider the changes brought about by ICT from not just an engineering perspective, but from multiple business perspectives. We also work closely with development partners and specialist ICT engineers.
- **Global** : Beyond our language capabilities, we can conduct business discussions in English, giving us the capability to lead projects to success even in different cultural environments.
- **Project Management**: We are not merely project managers focused on theory; we are problem-solving professionals with a thoroughly site-based approach, prioritizing agile, face-to-face communication.

Services

PM Global provides a variety of services to companies involved in global projects. We offer wide-ranging support tailored to customer needs and project status.

- **Global PMO Service**

We meticulously carry out your globally deployed project and secure consensus among all relevant parties to lead the project to success.

- **Agile Project Support**

We will keep your project moving by employing the agile development methodology that is rapidly gaining traction around the world.

- **Overseas Video Conference/Conference calls Navigation Support**

Our staff and translators who have experience in overseas business will support you with video conferences and conference calls.

- **Overseas business travel and business support services**

We keep you accompanied on overseas business trips and provide supports in your local business.

- **Project Advisory Service**

We objectively analyze your project and encourage the appropriate actions.

- **IoT/AI Project Support**

We keep projects moving by utilizing IoT and AI beyond existing business domains.

- **Online Information Service**

We deliver up-to-the-minute news on Indian current affairs, IoT and other topics.

- **Personnel Development Service**

We train and coach the personnel required for global business.
