Spencer Ogden Energy Pte Ltd

Company Description

Spencer Ogden partners with the organisations shaping the future of Critical Infrastructure, Natural Resources, Sustainability, and Finance.

Established in 2010, Spencer Ogden has grown into a global recruitment partner with 11 offices across EMEA, APAC, and the Americas, combining international reach with deep local expertise.

We work with clients at the forefront of complex, high-impact projects that power cities, strengthen economies, and accelerate the global energy transition. From early-stage investment and project finance through to engineering, construction, commissioning, and long-term operations, Spencer Ogden delivers specialist talent solutions across the full project lifecycle.

Our consultants are true sector specialists. We connect world-class talent with transformational projects, helping organisations scale delivery teams, mobilise contract workforces, and build long-term capability. Spencer Ogden provides the expertise and partnership that drives performance.

We are proud to support the people and projects that continue to power progress across energy, engineering, and the future.
