

Hakuto Co., Ltd.

Company Description

Heading for the future where technology and nature can coexist

Since its establishment in 1953, Hakuto, as an engineering trading company, is still agilely delivering the latest information and cutting-edge technologies, and as a manufacturer of industrial chemicals for production efficiency, Hakuto has continuously developed thanks to our customers' patronage and support. The future we are seeking through our corporate activities promises "the coexistence of human, technologies and nature." With our belief in the capability of new technologies to energize and enrich our lives and the earth, we will go forward to realize a more enriched society.
