Evernex Japan K.K.

Company Description

Evernex
IT life services

About Evernex
Ready for a fresh approach to maintaining and upgrading your installed base of servers, storage and networking equipment?

Evernex is a global, independent IT Life Services company with over **35 years of multi-vendor hardware experience**. We offer **end-to-end data center maintenance** service that allows you to extend the life of your IT assets. With our innovative approach to service, we'll help you change the way you manage your IT infrastructure. Evernex allows you to **maintain your IT systems beyond standard OEM end-of-service dates** – saving you both time and money.

Global Footprint
Evernex has unmatched experience in spare parts logistics. We offer IT infrastructure maintenance coverage like you've never seen before – moving spare parts worldwide in record time. Every day, we ship one metric ton of spare parts across the globe to keep your data centers operating at the highest level. With **29 subsidiaries** and our network of global partners and engineers, we help you handle all of your IT infrastructure maintenance needs. Today we support over **200k+ IT infrastructure** systems in **160+ countries**. And we have some **330 forward stocking locations** worldwide. No location is too remote – so where's your next challenge? Let us know and we'll be there to help you every step of the way.
