## Company Description

### Invent the Next Era

We are dedicated to creating "AppDramas", the most suitable entertainment for smartphones. Now, more than 30 million people all around the world are enjoying AppDramas!

**AppDrama** is an entertainment with story, illustration and music made for smartphones. At Genius, we distribute AppDramas in 15 languages, with a wide variation of genres (love story, suspense, human drama, tourism, etc.) and our main target is foreign countries. We already reached over 30 million downloads, and the number of fans is increasing rapidly. We create new entertainment most suitable for smartphones, and "redefine" the way to enjoy a story.

If you've got a passion for creating stories and want the opportunity to work with an international team in the heart of Tokyo, you better give it a shot.

The content that you create will be distributed worldwide to a diverse audience.

We are looking forward to meeting passionate new members.
