KAESER KOMPRESSOREN Co., Ltd.

Company Description

A family-owned company, KAESER KOMPRESSOREN is one of the world's leading manufacturers and providers of compressed air products and services. Established in 1919 as a machine workshop, Kaeser currently operates two manufacturing sites in Germany. The company employs approximately 7000 people worldwide.

The company manufactures its products at facilities in Coburg (northern Bavaria) and Gera (Thuringia), Germany. Kaeser products stand out for their remarkable **reliability, energy efficiency, cost efficiency** and **ease of maintenance** – all of which help the company to achieve its top priority: **complete customer satisfaction**.

Not only our Development Engineers, but also our service staff and Sales Engineers are fully committed to this key objective. Our Service department begins planning the spare parts supply process in parallel with the product development process. Sales Engineers advise our customers on the optimal size and specification for their systems, based on actual site and production conditions.

Once a system has been installed, Kaeser believes it is important to maintain a close dialogue with the customer. This ongoing exchange supports a continuous improvement process for products and services,

which is an essential factor behind the reliability, cost-effectiveness and quality for which Kaeser products are renowned throughout the world. This approach has not only allowed Kaeser to open up key global markets, but has also enabled the company to create and secure jobs in Germany, as well as abroad. Today, Kaeser compressors and equipment are distributed through a comprehensive network of branch offices and exclusive partners in over 140 countries.
