# Sungrow Japan K.K.

## Company Description

**Clean power for all**

Sungrow was founded by Prof Cao Renxian - a teacher at the Hefei University of Technology. Upon learning of the unsatisfactory state of electrical availability in rural western China he quit his teaching position in 1997 and founded the Sungrow Power Supply Co., Ltd.

Today, Sungrow is a more than $1.5 billion company. As a key high-tech enterprise in China, Sungrow specializes in R&D, production, sales, and service of new energy power supply devices for solar energy, wind energy, energy storage, new energy automotive drive systems, floating and land-based PV power plants. Our objective is always to provide clean power for all, today, tomorrow and beyond.

We have been engaged in new energy power generation for more than 22 years.  Our products and services cover more than 60 countries.
