

Concurrent Content Solutions Corporation

Company Description

Creative solutions powering brighter ideas

Concurrent is a global software and solutions company with a track record of success in developing disruptive, breakthrough technologies that help to make the world a better, safer, and more vibrant place. Our mission is to create software and solutions that captivate the imagination and inspire innovation, while providing a flexible foundation for growth. We're a company of dedicated, experienced professionals who are passionate about technology. Our people obsess over quality and are fanatical about delivering the highest performance solutions to our customers so they can succeed in their most ambitious endeavors.

Concurrent continues to change the world by developing new and innovative solutions based on our core Linux, storage, and computing expertise. We are developing the applications that will enable our customers to drive the next wave of growth in a broad array of industries.

We are inspired, energized, and enthusiastic about the future – so call us to learn more about what Concurrent can do for you!
