

Indo-Sakura Software Japan K.K

Company Description

Indo-Sakura is a group of Indian IT Professionals providing Innovative Business Solutions, IT Services & Outsourcing Services to Large & Medium scale Japanese IT Enterprises across Osaka, Nagoya and Tokyo region. Since its inception in year 2005, Indo-Sakura has won various accolades and appreciation for its continued quality deliverables to its Japanese clients.

Further, We have also started a 6-Months Intensive Japanese Language training program for young and brilliant IT graduates who want to make their career in Japan. We consider it as a major step forward in bridging Linguistic & Cultural gap between India and Japan. In this program, IT Graduates from elite universities in India are given an intensive training on Technical and Business Japanese Language Skills. Upon successful completion of their training, they are inducted in our software development center as a full time Bilingual Software Engineer.

By virtue of our long stint with Japanese enterprises, we believe that proficiency in Japanese language plays a critical role in delivering quality services. And hence we focus on Language as well as Technical skill-up rigorously and continuously.
