

Röchling Automotive Japan Co., Ltd.

Company Description

For more than 200 years, **Röchling Group** has been a global leader in the plastics industry. By providing customer-focused plastic solutions, we help improve everyday life around the world. Our products contribute to lighter vehicles, safer pharmaceutical packaging, and enhanced industrial applications.

With approximately 11,401 employees across 84 locations in 25 countries, Röchling operates close to its customers worldwide. In 2025, the combined sales of our three business divisions reached **EUR 2.547 billion**.

Automotive

The **Automotive** Division is driving the future of mobility. Our product solutions in the areas of **Aerodynamics, Propulsion, and Structural Lightweight** help customers overcome key challenges by improving mobility while reducing environmental impact.

Industrial

The **Industrial** Division is an expert in delivering the right material solution for virtually every application. We develop and supply customer-focused plastic solutions for a wide range of industries. Our extensive portfolio of thermoplastic and thermoset materials includes semi-finished products as well as precision-machined components manufactured from those materials to meet diverse customer requirements.

Medical

Röchling Medical develops innovative, reliable, and customer-specific products, services, and platform solutions for the healthcare market. As a trusted partner, we support customers worldwide in achieving breakthroughs in disease prevention and restoring health.
