

NDR Company Limited

Company Description

With foreign subsidiaries in India and Thailand, NDR has a global footprint. We offer solutions which are best suited to your needs.

Since our inception in 1984, we have been leveraging electronics and computer technologies as well as technologies which are a combination of these to contribute towards building an information society.

By making continuous improvements to our quality management system to meet customer expectations, and striving to learn new technologies day after day as an R&D company, we are engaged in the development of products and services with higher value addition.
