

FutureRays Consulting Co.,Ltd.

Company Description

FutureRays Consulting Co., Ltd. (hereinafter referred to as FRC) is a full-service consulting firm providing comprehensive consulting services spanning all phases—from upstream activities such as business strategy formulation, IT strategy development, and systemization planning to system implementat

【System Implementation】

We have consultants with extensive knowledge and experience.

They participate in every phase, from requirements definition to operation.

Our hallmark is flexible support, including new technology validation and global project management.

【SAP BASIS】

We implement SAP solutions tailored to the times.

We specialize in BASIS support leveraging the latest technologies, such as S/4HANA conversion, upgrades, and SAP Business Technology Platform.

【Infrastructure Construction】

We excel in servers, storage, virtualization, and cloud.

We specialize in designing infrastructure technologies ranging from public clouds like AWS and Azure, SAP's HEC, and virtualized internal clouds, to on-premises servers and storage.

【Tagetik】

Leveraging financial and management accounting expertise for implementation support.

We provide comprehensive support from Tagetik implementation to operation, utilizing advanced financial and accounting knowledge. We support swift and accurate management decisions.
