

Sompo Japan DC Securities Inc.

Company Description

As a member of Sompo Group, which is pursuing a goal to become a corporate group capable of providing the highest standards of products and services contributing to security, health and well-being of our customers, Sompo Japan DC Securities is offering a range of services totally dedicated to "Defined Contribution pension plan".

Sompo Japan DC Securities provides end-to-end services from implementation to plan administration of Japanese corporate DC plans. This unique "bundled service" model is based on integrated record-keeping and plan administration services, offering seamless and convenient service delivery. We originally founded this unique service model based on know-how and expertise from the US 401(k) and this kind of one-stop service is rarely seen in other parts of Japan. Since the start of our business as the nation's first defined contribution plan administrator in May, 1999, many companies in a wide range of industries have appointed us as plan administrator for their defined contribution pension plans and we established a strong presence in the market as the highest rank plan administrator in terms of the number of approved plans.
