

Equis Central Service Japan Co., Ltd.

Company Description

Equis Central Services (Japan) K.K.

Equis Central Services (Japan) K.K. is one of the group companies of Equis Development Pte. Ltd, headquartered in Singapore. Since its establishment in 2010, the Equis Group has been actively engaged in infrastructure development and investment in the Asia Pacific region, with a focus on Japan, Australia and Korea. Equis is developing and evolving its business model further by signing investment agreements with the Abu Dhabi Investment Authority and the Ontario Teachers' Pension Fund of Canada in 2020.

Business activities: Equis is engaged in the development, construction, and operation of its own projects, focusing on renewable energy, biomass power generation, and recycling and waste management.

Business regions: Developed market regions in the Asia-Pacific region with a focus on Japan, Australia and South Korea.

Characteristics: We handle the entire project lifecycle in-house, including project origination, business development, engineering, operation and maintenance, asset management, and performance optimization.
