

Techno Alpha Co., Ltd.

Company Description

Our company, Techno Alpha Co., Ltd., has since its foundation in 1989 been making efforts to expand its business in line with the growing industry. Being an international trading company we specialize in technology with our technological background and manufacturer-oriented function in tandem with our subsidiary, Peritec Corporation, KYA technologies corporation.

Our top priority is placed on satisfying our customers' needs through our international marketing and technical support. We import, from suppliers the world over, cutting edge equipment and quality materials such as power semiconductors, SMT products, FPD's, liquid filtration and equipment for laboratory use and shipbuilding use as well. We also export superior quality products of Japanese manufacturing equipment under the licenses introduced from our principals as well as our own developed products.

In 2007 we Techno Alpha Co., Ltd. went public on the Osaka Stock Exchange "Hercules", currently "JASDAQ".

In Feb, 2012, I succeeded the Power of representation from having taken up the post formerly representative Mr. Katsumasa Matsumura.

We are determined to commit ourselves to making further efforts and exploring business opportunities toward a prosperous future.

Tsutomu Aoshima
Chief Executive Officer
Techno Alpha Co., Ltd.

We want to be the best partner for Japanese market !
