3shape Japan

Company Description

We’re on a mission to change dentistry

We believe that there is always a better and more efficient way to provide care and dialogue around dental treatment. We also believe that none of this can be done alone, which is why we collaborate with a network of dental professionals, industry leaders and resellers.

We innovate for superior patient care. For us, this means we work on solutions that make a real difference in the lives of both patients and dental professionals around the world.
