

Bee Incorporations

Company Description

Founded in 2009, BEE Incorporations is a leading sustainability consulting company that specializes in delivering sustainability solutions at all aspects of building construction and operations. We are headquartered in Shanghai, with offices across Asia and Europe. Combining experience and specialized skills across various scales and sectors, BEE Incorporations help clients improve the performance of their building portfolio. Our global portfolio ranges from retail interior spaces to hotels and mixed-use developments, across all sectors and scales. At BEE Incorporations, we provide green building certification and corporate wellness consulting, monitoring & testing, and green materials solutions for projects around the world.
