

KANO CORPORATION CO., LTD.

Company Description

Kano Corporation Co., Ltd. was launched by the fifth generation of the Okume Shoten marine product wholesale company which was founded in 1871.

Based on experience and know-how backed by tradition, in the mere five years since our start in 2015, we have expanded our businesses to comprise restaurants serving a Tokyo specialty called monjayaki, the sales of prepared dishes, select merchandise, and our original dashi soup stock packs.

Our passion has not changed since the company was founded.

We hope to deliver delicious flavors that we endorse to our customers.

We also hope to share Tokyo's food culture, omotenashi hospitality, and our considerate customer service throughout Japan and eventually the world.

With this ongoing dream, and our pride as food professionals, we will continue to strive forward.
