

Pelican English School G.K.

Company Description

Hello everyone, my name is Stephen. I am from the central coast, Sydney Australia. I've been living and teaching English in Japan since 2003.

I have taught English at elementary and junior high schools as an ALT in several cities in Aichi and Mie, at these schools I gained a lot of experience making lesson plans and team teaching with Japanese teachers.

At these schools I coached children to participate at English Speech competitions and led them to win in the championships twice.

After 8 years of teaching as an ALT I gained a position at Berlitz where I was trained extensively to teach one on one English, business English including marketing and conversational English. I have extensive knowledge of teaching TOEIC, EIKEN, TOEFL and many textbooks used by professional ESL teachers. At Berlitz duties included travelling to private companies offices such as Toyota TICO, NGK, and Aichi steel to teach business marketing English and also out services to Okazaki to teach lesson plans made personally by myself for kindergarten schools.

I have taught at private English schools as well, therefore I've taught from kids to adults, students, wives, doctors and professors, company managers, so on, all occupations including professionals moving overseas. I am very proud of my teaching quality, which is high enough to improve your English ability. I am very much looking forward to meeting all of you.

* For motivated and talented Native English Teacher *

Pelican English School offers you a chance to take advantage of the professional opportunities available with our substantial training methods, ranging from adults to young children.

Pelican English School offers a great work environment, a competitive employment package, top-notch training and an opportunity to build valuable work and life skills.

Our industry leading curriculum and materials also allow teachers of any experience to deliver fun, engaging and effective lessons.

Stephen Draper, Owner of the school
