

FISCO Ltd.

Company Description

What is FISCO?

FISCO Ltd. is a professional group that provides superb investment support services.

We cover markets below:

- **Equity Markets**
Put an emphasis on fundamental and technical approaches. Analyze trends of index futures, individual stocks and initial public offering (IPO) stocks from various viewpoints.
- **Foreign Exchange Markets**
Intensively watch major currencies for 24 hours covering Tokyo, London and New York markets. Provide detailed reports on backgrounds of currency move, tricks and various countries' VIP statements.
- **Bond Markets**
Provide analytical information, mainly of Japanese Government Bond (JGB) market, by carefully watching policies and market players.
- **Commodity Markets**
Analyze information related to commodity future trades and their price movements, making it easy-to-understand format, and forecast pricing.

Products of FISCO are available at dedicated terminals for financial information, including QUICK, REUTERS and BLOOMBERG. Also accessible on various websites such as on-line security companies, portal sites etc.

FISCO professionals are always trying our best to offer financial services that are utmost useful for customers' asset creation, based on in-depth understanding and insight towards investment and market.

Management Philosophy of FISCO

We;

- Aim at the best company in financial services sector
- Believe in neutral stance and ensure level playing field
- Respect individual value as well as spirit of harmony
