Intrepid Japan Co., Ltd.

Company Description

Intrepid DMC is your trusted destination management company, operator and product developer.

After expertly delivering destination management solutions for more than 10 years as part of the Intrepid Group, the world's largest adventure travel company, PEAK DMC became Intrepid DMC.

With 28 DMCs across Africa, Asia, Europe and Latin America, we create sustainable experience-rich solutions for the world's leading travel brands.

Our business is global, but our expertise is local, with innovative products operated by our experienced teams in-destination. Each year we create and deliver incredible travel experiences in more than 90 countries.

Building long-term partnerships is important to us. That's why our clients access our global network and receive our full support, but retain their own customers and brands. Our white-label model means we're the brand behind their brand. Our relationships are built on trust and reliability and with our established, secure and competitive businesses we offer a low-risk, legal operating base worldwide.
