

ASPASIO Co.,Ltd.

Company Description

Comprehensive M&A advisory firm focused on Middle & Asia

Our mission statement at ASPASIO Co., Ltd. is to “thoroughly be client oriented and provide services of the highest quality.”

We focus on “Middle” and “Asia” and our firm is a group of very unique professional who can offer seamless one-stop services.

I think the key to recovery of the Japanese economy greatly lies in the strong growth of medium-sized companies, which are the foundation of the economy and I think the future growth will come from leveraging the potential of Asia. We will use our strong relations with various investment funds and professional firms across Asia that we have built so far, and we will support “amalgamation” of Japanese companies and excellent companies from China and ASEAN.

In order to fulfill our responsibilities to the clients, apart from M&A advisory services, we have adopted the structure that allows us to offer seamless services including the financial due diligence required for understanding the risks involved in the transaction, and operational process improvement and business plan creation support for the company where investment is made. Instead on individual transactions, I would like ourselves to commit to the long-term growth of the client.

Our core members are consultants with more than 10 years of experience in M&A, business revitalization, overseas expansion consulting, and business process improving consulting. We accurately understand your requirements and offer the best solutions that are feasible.

All our professional members work with Aspiration and Passion, which form the company’s name, and we will put out best efforts for client’s metabolism and value creation. We look forward to serving you.
