

Mahr Japan Co.,Ltd.

Company Description

One company, a variety of products, passionate employees: that is Mahr. As a global supplier of production metrology, rotary stroke bearings and gear metering pumps as well as meter mix dispense technology, the Mahr Group has the right solution for a wide range of applications. You can rely on our technical innovation and the expertise we have gained in almost 160 years of company history.

Our objective: **never settle for mediocrity**

To us, expertise means recognizing, developing and acting. Top quality is the measure of our performance. We never stand still, we are constantly improving, inspiring and implementing – every day. We tackle your problems with enthusiasm, finding creative ideas and solutions.
