

AT&S Japan K.K.

Company Description

AT & S Austria Technologie & Systemtechnik AG – First choice for advanced applications

AT&S is one of the globally leading manufacturers of high-end printed circuit boards and IC substrates. At its locations in Europe and Asia, AT&S develops and produces high-tech solutions for its global partners, especially for applications in the areas of communication, computer and consumer electronics, mobility, industry and medical technology. As an international enterprise, AT&S has a global presence, with production facilities in Austria (Leoben and Fehring) and plants in India (Nanjangud), China (Shanghai, Chongqing) and Korea (Ansan, near Seoul).

High-tech PCBs for high-tech applications

Printed circuit boards are the interface between electronic devices and their mechanical and electronic components (e.g. semiconductors). AT&S printed circuit boards are used in mobile devices (smartphones, smart watches, tablets, notebooks, etc.), industrial electronics (process control, sensors, etc.), automotive applications (e.g. transmission control, camera and security systems etc.) as well as medical and health technology (hearing aids, pacemakers etc.).
