Company Description

AT & S Austria Technologie & Systemtechnik AG - First choice for advanced applications

AT&S is one of the globally leading manufacturers of high-end printed circuit boards and IC substrates. At its locations in Europe and Asia, AT&S develops and produces high-tech solutions for its global partners, especially for applications in the areas of communication, computer and consumer electronics, mobility, industry and medical technology. As an international enterprise, AT&S has a global presence, with production facilities in Austria (Leoben and Fehring) and plants in India (Nanjangud), China (Shanghai, Chongqing) and Korea (Ansan, near Seoul).

High-tech PCBs for high-tech applications

Printed circuit boards are the interface between electronic devices and their mechanical and electronic components (e.g. semiconductors). AT&S printed circuit boards are used in mobile devices (smartphones, smart watches, tablets, notebooks, etc.), industrial electronics (process control, sensors, etc.), automotive applications (e.g. transmission con-trol, camera and security systems etc.) as well as medical and health technology (hearing aids, pacemakers etc.).
