

Horizon Hotels, Inc.

Company Description

Grand Prince Hotel Osaka Bay

Grand Prince Hotel Osaka Bay features 20 banquet and meeting venues of various sizes, including one of the largest banquet halls in Osaka. The hotel is well equipped to host international conferences, corporate events, and other large-scale gatherings. In its restaurants, services are provided with consideration for guests' dietary allergies as well as their religious and cultural backgrounds. Through interactions with a diverse range of clientele, team members can further develop their hospitality expertise and enhance their ability to provide personalized service.

The Osaka Bay Area is being developed as a hub for business exchange, urban vitality, and safe, sustainable community development under regional government initiatives. Yumeshima is expected to experience significant growth toward 2030, driven by transportation infrastructure improvements, post-Expo 2025 redevelopment projects, and Integrated Resort (IR) development plans. In addition, tourism and commercial facilities in surrounding areas, including Tempozan, are continuing to be enhanced. As a result, the value of the Bay Area as a destination for tourism and extended stays is expected to increase even further in the years ahead.
